Section 1: Introduction

Olive High Boys takes all reasonable steps to promote and safeguard the welfare of all individuals engaged in any school activity. There are robust safeguarding arrangements in place which are regularly reviewed to keep all pupils safe. Olive High Boys is committed to the promotion of an inclusive school community which does not allow any individual or group of individuals to be marginalised, stigmatised or excluded from school life. All educational establishments have a responsibility to promote values of openness and respect and to facilitate free debate which is characteristic of being a British citizen. It is in this context that the school has developed this strategy. The Prevent Strategy will be updated annually in line with emerging government information, advice and guidance.

Section 2: Government Policy

Section 21 of the Counter Terrorism and Security Act 2015 places a duty on certain bodies to have "due regard to the need to prevent people from being drawn into terrorism". The Government's Prevent Strategy was published in 2011 and forms part of an overall Counter Terrorism Strategy known as CONTEST. The Contest Strategy has four elements which are detailed below:

- Pursue
- Protect
- Prepare
- Prevent

Prevent is a key part of the Contest Strategy which aims to stop people from becoming terrorists or supporting terrorism. Early intervention is at the heart of Prevent in diverting people away from being drawn into terrorist activity as Prevent happens before any criminal activity takes place. It is about recognising, supporting and protecting individuals who might be susceptible to radicalisation.

The 2011 Prevent Strategy objectives are as follows;

- Respond to the ideological challenge of terrorism and the threat we face from those that promote it.
- Prevent people from being drawn into terrorism and ensure that they are given appropriate support.

- Work with sectors and institutions where there are risks of radicalisation that we need to address.

The Government's Prevent Strategy was explicitly changed in 2011 to deal with all forms of terrorism and target not only violent extremism but also non-violent extremism which can create an atmosphere conducive to terrorism and can popularise the views which terrorists exploit. The United Kingdom currently faces a range of terrorist threats. All terrorist groups who pose a threat to the UK seek to radicalise and recruit people to their cause. A system of threat levels has been created which represents the likelihood of an attack in the near future. The current Government threat level from international terrorism in the UK is 'severe' which means that a terrorist attack is a strong possibility.

Section 3: Definitions

For the purposes of this strategy the following definitions have been adopted:

Radicalisation is defined as the process by which people come to support terrorism and extremism and, in some cases, then participate in terrorist groups.

Extremism is vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. In the Common Inspection Framework August 2015 Inspectors make their judgement on Safeguarding under the Effectiveness of Leadership and Management based on whether "learners are suitably protected from the risks associated with radicalisation and extremism".
